Svetlana Electron Devices, Inc. is dedicated to serving the radio amateur. Our organization is staffed with radio amateurs at all levels. We know the contribution amateur radio has made to power tube technology and we strive to strengthen our association with the radio fraternity. We understand the needs and special requirements of hams and are tailoring our products and organization to serve those needs.

Svetlana power tubes are new to the Western world, however, we have been manufacturing power tubes in St. Petersburg Russia since the beginning of the technology. Svetlana began manufacturing electric light bulbs over one hundred years ago and is among the earliest vacuum tube manufacturers. With a rich history in the technology, Svetlana is the largest power tube designer and manufacturer in the world. We manufacture a wide variety of power tubes up to the level of 1 Megawatt CW. Svetlana tubes are of the highest quality backed by the strongest warranty in the industry.

Listed below are the essential characteristics of Svetlana power tubes now available for amateur radio requirements.

**S**vetlana Electron Devices, Inc., has been delivering high-quality vacuum electron products since the 1920's. Now Western-type directly plug-compatible Svetlana tubes are available to the entire world. These high-quality products meet the stringent requirements of the Russian military.

Russia continues to develop vacuum electron technology. Specific Russian improvements that are not available in the West are incorporated in Svetlana tubes. Improvements are found in our cathodes, ceramics, electron ballistics, and processing. For the user these features result in longer operating life and they form the basis for our extended warranty which is the best in the industry.

Today, Svetlana delivers quality electron tube products for use in both new and existing operating systems. Svetlana tubes are rapidly becoming the product of choice in new equipment where reliability and economics are essential.

Contact your Svetlana Stocking Distributor for a comparative price and warranty quotation on any of the following broadcast tubes.
