DESCRIPTION

The GL-929 is a high-vacuum, two-electrode phototube which has extraordinarily high sensitivity to light sources predominating in blue radiation. Because of its excellent stability, and high sensitivity, the GL-929 is particularly suited for measurement and relay applications.

TECHNICAL INFORMATION

These data are for reference only. For design information refer to specifications.

GENERAL CHARACTERISTICS

Number of electrodes ................................................. 2

Electrical

Spectral response ......................................................... S-4
Luminous sensitivity at 250 volts, 0 cycles ........................................... 45 microamperes per lumen
Interelectrode capacitance ................................................. 2.6 micromicrofarads
Maximum dark current at 250 volts ........................................... 0.0125 microampere
Wavelength of maximum response ........................................... 4000 angstroms
Sensitivity at maximum response ........................................... 0.040 microampere per microwatt
TECHNICAL INFORMATION (CONT'D)

Mechanical
Window dimensions ........................................... 1 1/8 x 7/8 inches
Seated height to center of useful area ..................... 1 3/4 x 7/8 inches
Maximum over-all height .................................. 3 1/2 inches
Maximum seated height ................................ 2 1/2 inches
Maximum diameter ........................................ 1 1/8 inches
Base .................................................................... M8-046
Mounting position ............................................. Any
Net weight, approx ........................................... 3/4 ounce
Shipping weight, approx .................................. 3 pounds

MAXIMUM RATINGS
Anode voltage, d-c or peak a-c .............................. 250 volts
Cathode current density .................................. 102 microamperes per square inch
Ambient temperature ...................................... 50 centigrade
